

Professional Summary

Detail-oriented Data Analyst with hands-on experience in data cleaning, exploratory analysis, and reporting using Python, SQL, and Excel. Skilled in validating datasets, performing trend analysis, and preparing structured interactive dashboards to support data-driven decision-making. Comfortable working in team-based environments with a strong focus on documentation, data integrity, accuracy, and continuous learning.

Education

Master of Computer Applications (MCA) Narayana Engineering College, JNTU Anantapur	2024 – 2026 9.0 / 10.0 CGPA
Bachelor of Science (Computer Science) Chaitanya Bharathi Degree College	2021 – 2024 82%

Technical Skills

Data Analysis & Visualization: Power BI, Microsoft Excel (Pivot Tables, VLOOKUP, Charts)
Programming & Databases: Python (Pandas, NumPy), SQL (MySQL)
Core Competencies: Exploratory Data Analysis (EDA), Data Cleaning, Data Validation, Descriptive Statistics, Trend Analysis, Data Interpretation, Reporting & Documentation

Data Analytics Projects

Sales Data & Revenue Analysis	SQL, Microsoft Excel
- Analyzed extensive sales data using complex SQL queries to identify actionable trends in revenue growth, product performance, and customer behavior. - Cleaned, transformed, and validated raw data from multiple sources to ensure high data integrity and accuracy. - Created interactive Excel dashboards utilizing advanced pivot tables and charts to visualize monthly sales trends and track Key Performance Indicators (KPIs). - Generated structured reports highlighting top-performing products and regions, directly supporting business strategy and decision-making.	
HR Analytics Dashboard	Power BI, Data Visualization
- Designed and developed an interactive Power BI dashboard showcasing critical HR metrics including attrition rates, recruitment trends, and overall employee performance. - Visualized complex workforce trends to enable data-driven insights, supporting HR and executive teams in strategic planning and talent management.	

Experience & Simulations

Data Analyst Intern	Edufyi x IBM	2026
- Assisted in data pipeline creation, executing SQL queries and Python scripts to preprocess and organize data. - Maintained clean, structured data repositories for cross-functional team access and problem-solving.		
Generative AI Data Analytics – Job Simulation	Tata Group (Forage)	2026
- Extracted and analyzed complex datasets to derive actionable insights for various simulated business scenarios. - Created visual reports and dashboards to effectively communicate data findings to stakeholders.		

Certifications & Achievements

- Certifications:** Python for Data Analysis (Skill Dzure), Power BI Workshop (Office Master)
- AI & Data:** Gemini for Data Scientists and Analysts (Google), Gen AI Data Analytics (Tata Group)
- Achievement:** Google Cloud Gold League – Ranked in top 5% with 3,004 points (BigQuery, Analytics)
